

MAIA SANCHES | ARCHITECTURAL TECHNICIAN

QUALIFICATIONS + MEMBERSHIPS: BACHELOR'S DEGREE ARCHITECTURE AND URBANISM

UP CLOSE...

When she's not busy baking treats from her native Brazil, Maia unwinds with yoga and would love to develop her free-diving skills.

Maia is an exceptional communicator who deftly balances attention-to-detail with creative flair.

With over 10 years' experience in architecture under her belt, Maia excels at developing designs and documentation that achieve the best outcome for the client. It's this laser-sharp focus on the details that makes Maia such a valuable member of the technical team.

For Maia, it's the satisfaction of seeing a project develop from paper to reality that motivates her: "When I see what started just as an idea on paper in real life, and it exceeds expectations, that's when I know I've hit the mark," she says.

Being able to balance different perspectives – and listen to everyone's varying needs – is something Maia excels at. She believes the best outcomes are collaborative ones, where every stakeholder feels seen and heard.

Maia enjoys absorbing the varied knowledge and skills of her colleagues, which helps her develop considered and unique design solutions and technical specs for the team.

"When I see what started just as an idea on paper in real life, and it exceeds expectations. That's when I know I've hit the mark."
